"July 15, 1922, the day of the first Eifelrundfahrt for cars and motorcycles starting in Nideggen."

In 1922, 6 years before the Nürburgring was opened, there was already a race track in the Eifel which was opened as the **"German Tourist Trophy"**. A track length of 33.2 km and 86 curves had to be mastered. The 12 laps to be driven thus already resulted in the respectable sum of 1032 curves. With an altitude difference of 265 meters, which had to be mastered with each round, one can understand that at that time in the first enthusiasm one spoke of one of the sharpest race tracks in the world and the **"German Targa Florio"**. The track led from Nideggen through Berg, Wollersheim, Vlatten, Heimbach, Hasenfeld, Schmidt and Brück back to Nideggen with an average speed of 74km/h.

We would be happy if we could drive and experience the former Eifel circuit together with you and your vehicles, on **July 16/17, 2022**. The event is a meeting of pre-war vehicles with a drive (approx. 95km) - mostly over the former race track, which is to be completed on the basis of a route recommendation.

You are already traveling to the event on Saturday, July 16, 2022?

Experience a beautiful day with a great dinner among like-minded people. The historic vehicles park for the welcome drink in the forecourt of the castle -the "Old Paddock". Before that you will enjoy the "Eifler-Landpartiel" during an excursion in the surroundings of Nideggen. Together you will then drive to the "Willkom Evening" and enjoy a 3-course menu.

If we have aroused your interest in this commemorative drive, you can register to take part in the drive. We gladly expect sporty looking pre-war vehicles (racing, sports and touring cars as well as motorcycles) up to year of construction **1939** which could also have started at the Eifelrundfahrt at that time.
